

AVKOPACK[®] 25

CHARACTERISTICS

Multilayer aramide tapes are manufactured in AVKO[®] JSC on unique equipment for multilayer weaving of tapes with different thickness. Tape is produced from 100 % aramide yarn.

Application

Aramid tapes is used for covering of transport rollers for horizontal tempering furnaces, producing of flat or automotive tempered glasses.

Advantages

Aramid tapes are produced from 100 % aramide yarns produced from high strength fibers with high purity.

Technical parameters

Working temperature: 300°C /temporary 600°C/

Dimensions: 8x3; 8x4; 10x3; 10x4; 12x3;12x4

Quality Control

The whole production process is supervised in accordance with the Quality System ISO 9001, ISO 14001, OHSAS 18001.

Human hazardous

Not registered.
