

# AIGI HIGH QUALITY PACKINGS

## AIGI 29 Power Station Packing

DATA SHEET

**AIGI 29 uses a nickel wire reinforced Flexible Graphite yarn embedded in a nickel wire knit jacket which is inter-banded and then coated with special blocking agents for enhanced sealability. The extreme temperature resistance of the flexible graphite combined with the outstanding extrusion resistance of the nickel wire makes AIGI 29 an obvious choice for high temperature/high pressure steam valve applications. The chemical resistance of Flexible Graphite makes AIGI 29 also a good choice for valves in Power Stations and petrochemical plants.**

### Properties Value

Color	Black
Temperature	570°C
PH Range	PH 0-14
Pressure	300Kg/cm2 (4350 PSI)

### Service Media & Conditions

Valves against steam, water, solvents, acids and alkalies

### Application

Wide range of Steam Valves

AIGI22 comes in all cross-sections (size) and 5 pound and 10 pound boxes

**AIGI ENVIRONMENTAL INCORPORATED**

A Subsidiary of AIGI Group
